There is abundant evidence of "doublecrossing" on both sides. The machine is greatest caution in choosing its officers, because they suspect that "ringing in" many on them. of the machine men say there is mistrust of the men now said to be machine ranks, and these same machine men say there are many in the Keach camp who will vote for Kern. THREE CREWS NOW PUTTING PAVE-MENTS IN GOOD CONDITION.

Mayor Bookwalter's Plan to Have the Work Done Quickly-East Market Bids-Municipal Affairs.

Rapid work by three repair crews have made all the asphalt streets in Indianapolis almost perfect. During the past six weeks nearly 20,000 yards of asphalt have been laid to repair streets where the asphalt surface was broken, and the city can now boast of the best streets in the country. Mayor Bookwalter urged this rapid work so that the use of these streets would be "Taggart says it's a 'cinch'?" he was enjoyed all the summer. Heretofore the policy has been to make these repairs gradually and thus repairs were going on most of the season. BOSTON MAN PREACHED. Last night an exceedingly interesting sermon was preached by the Rev. James L. Barton, of Boston, who talked on "The Forces of Transformation and Reform." A devotional meeting and a short address by Rev. Charles H. Richards, of New York, on "A Half Century of Church Building," which related the growth of the Congregationalist Church, preceded the talk of Dr.

A number of interesting facts concerning the growth of the Congregationalist Church in the foreign mission field were brought out by Dr. Barton. This church, with the Methodist, was the first to invade heathen lands with the Christian religion. This was over ninety years ago, and to-day the Congregationalists have 550 American missionaries in various countries, including 85 in India, the same number in China and Japan, and about 200 in Turkey. There are 16 colleges and 12 seminaries in the heathen lands, with over 3,600 trained natives. All this amounts to about \$2,500 a day expenses. There are also numerous hospitals and industrial schools, where the natives are taught all kinds of work. This vast work is kept up by legacies, which amount to more than \$150,000 a year, and by subscriptions. The work is done under the American Board of Commissioners for Foreign Missions, with headquarters in Bos-

MURDERER'S STATEMENT.

Edward Hoover at First Thought of Killing Whole Family. Edward Hoover, the man who murdered

his father-in-law, Frank Sutton, on Mon-Gravel roadway and cement walks in day afternoon, made a statement in writing to Prosecutor Ruckelshaus yesterday, in which he confesses that he intended to kill from Minnesota street to Naomi street. J. Sutton, and telephoned for him to come to town for that purpose. He planned first to exterminate the entire family, and attempted to hire a rig in

which to drive to the farm, but was unable to find a liveryman who would let him have a horse. He then changed his plans and telephoned for Sutton to come to town, expecting that his wife would come along. Prosecutor Ruckelshaus says that the murder was without doubt premeditated, and the State will have no trouble in convicting Hoover of murder in the first degree. The case will go to the grand jury to-day. and the indictment, when returned, will be acted upon at once.

The stone contracted for cannot be shipped from the district on account of the strike, and all of it shipped to the city has been hauled to the federal building yard and much of it set in position. Several other buildings in Indianapolis will be similarly affected. The strike is said to be paralyzing business in the city of Bedford, which is struck a few days ago when an increase of

pay was denied 'hem by the quarry owners. E. T. GILLILAND DEAD.

Barclay, Osage Co., Kaus., "and four years ago my work keeping me in a warm room and

stepping out frequently into the cold air gave me bronchitis, which became chronic and deep seated. Doctors failed to reach my case and advised me to try a higher air, but, fortunately for me, a friend also advised me to try Dr. Pierce's medicines. I commenced taking your 'Golden Medical Discovery,' and by the time I had taken the first bottle I was better, and after taking about four bottles my cough was entirely gone. I have found no necessity for seeking another climate."
